

11th International Conference on Behaviour, Physiology and Genetics of Wildlife

4th to 7th October 2017
Berlin, Germany

organised by
the Leibniz Institute for Zoo and Wildlife Research (IZW)
and the European Association of Zoos and Aquaria (EAZA)

Main topics

Behavioural Ecology

Stress & Disturbance

Reproduction Biology

Conservation Genetics

Conservation Biology

Presentations and discussions during

main sessions

workshops

poster sessions

and the poster party

In addition, there is an entertaining evening programme with the welcome evening and the conference banquet.

The aim of this conference is to foster an exchange of ideas amongst scientists with an interest in free-ranging and captive mammalian species. We are expecting a stimulating meeting with many interesting presentations and fruitful discussions.
